

Solidarity with Junior Doctors & NHS Students

SAVE OUR NHS

Public meeting with a Doctor from Whipps Cross
& student nurse defending student bursaries
Saturday 23 January, 2 to 4 pm

Harmony Hall, 10 Truro Road, Walthamstow E17 7BY (off Walthamstow Market)

Despite re-entering talks in good faith, the government have failed to provide junior doctors with reassurances on key areas around contractual safeguards and anti-social hours. Junior Doctors have therefore been forced to call further strike action to stop a new contract being imposed which would be bad for doctors, patients and the NHS.

The contract changes to unsocial hours payments will result in Doctors facing pay cuts. But this dispute is about more than pay

The removal of safeguards on hours risks exposing patients to doctors working dangerously long hours. Unsafe working practices risk patients' lives.

If they get away with this the Tories will impose new contracts on all NHS staff.

The government has widened the assault on the NHS threatening to cut nurse bursaries. From 2017 courses will be fee paying meaning over £50,000 debts for a three year degree: students will be paying to work! These attacks on pay and conditions pave the way for more privatisation. **We need to support the junior doctors and healthcare students to defend our NHS.**
